

EOS Genesis Platinum 9 Plate TURBO Water Ionizer and Alkalizer

**** Only \$2,095! ****

Why the Genesis Platinum 9 TURBO?

Better flow rate (up to four liters a minute) and more power than the [Genesis Platinum 7!](#) Can be used commercially.

TURBO button makes creating the strongest alkaline and acid water easy! Great for disinfecting, sterilizing and cooking!

With **325 watts of power**, the Genesis Platinum 9 TURBO can create the perfect water for any situation, including the best drinking water for you and your family.

Plus it has **9 platinum-titanium plates**, **76 levels of pH and ORP adjustment**, a **large LCD seven color screen**, and **two .1 micron multi-stage activated carbon filters** to get your tap water clean.

The Genesis Platinum 9 TURBO tops out at a range of **12 pH to 2.0 pH!** Almost the entire pH range!

This is all you and your family will even need to create the perfect drinking water at 9.5 pH, disinfectant water below 2.3 pH, or even a natural detergent above 11 pH. With the Genesis Platinum 9 TURBO, you get everything!

We have seven years in business, an A rating with the Better Business Bureau, a 5 years parts, labor, and shipping warranty, a 60 day money back guarantee, and a lifetime guarantee on our plates, plus exceptional customer service!

Genesis Platinum 9 TURBO Features:

9 Platinum-Titanium Plates

Covers a surface area of 225 sq. inches. Made from the most precious materials on earth by Heesung, the top metal manufacturer in Japan.

76 Programmable pH and ORP Levels

The Genesis Platinum 9 TURBO allows you to program nearly any pH and ORP combination so you may easily customize the pH and ORP to the level that's right for you and your family.

Premium Dual Filtration

The Genesis Platinum 9 TURBO uses a premium activated carbon filter as well as a specialized media filter to improve the filtration of tap water contaminants including fluoride, chlorine and heavy metals.

Smart Filtration Technology (SFT)

Microchips are built into the outside of the filter casings, which monitor filter life and contamination levels and indicate the exact time to change your filter.

SMPS Power Control System

Applies stable power overcoming issues such as heat, noise, and loss of power.

Full Size Color LCD Screen

For displaying pH & ORP estimations + reading the auto-diagnosis system, filter life, flow rate, and more.

Automatic Water Flow Control

The Genesis Platinum 9 TURBO was designed with ease of use in mind. There is no need to manually adjust your water flow. The Genesis Platinum 9 TURBO system will automatically turn your water on, filter it, and ionize it. Another smart feature of the Genesis Platinum 9 TURBO.

Automatic Cleaning System

The Genesis Platinum 9 TURBO automatically cleans as you use it. No waiting, just fresh, ionized water every time.

Smart Auto-Diagnosis System

The Genesis Platinum 9 TURBO continually monitors six internal

operating systems ensuring product safety and optimal performance.

Automatic Draining System

Drains water from the electrolysis cell system and filter to enhance full system cleaning and greatly expand the life-span of the Genesis Platinum 9 TURBO system above and beyond other standard ionizer systems.

Automatic pH and ORP Control and Display

Auto controls the pH and ORP of your water by adjusting the ionization according to the mineral content of your tap water. This allows the Genesis Platinum 9 TURBO to estimate and display the pH and ORP of your water.

Advanced Voice Prompt System

The Genesis Platinum 9 TURBO notifies you of each system function with soothing voice prompts, chimes, and soft music, all of which have five volume levels, as well as mute.

Real Time Water Flow Data

Monitors and displays the exact water flow rate, ensuring accurate pH and ORP levels in your water.

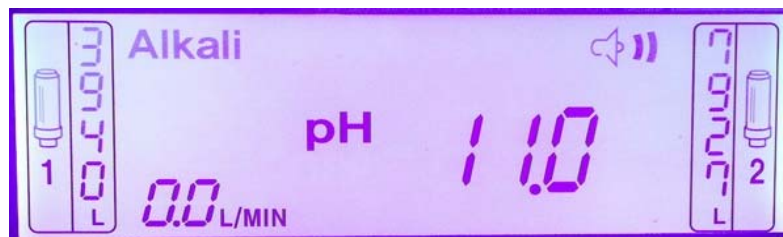

Contemporary Design

The sleek look and compact design of the Genesis Platinum 9 TURBO can easily fit in with any decor in your kitchen or home.

Superior Materials All Genesis Platinum 9 TURBO systems utilize quality machinery, leak proof stainless steel adapters & non-toxic food-grade hose and plumbing. More reasons why the Genesis Platinum 9 TURBO is the smart choice!

The Advanced Genesis Platinum 9 TURBO Screen:

No other **drinking water ionizer and alkalizer** communicates to you like the Genesis Platinum 9! It tells you the filter life remaining for the number one and number two filters. It tells you the water flow in liters per minute. It displays the pH of the water as well as the ORP (by pressing the "set" button). If there is a problem with the Genesis, it displays an error code to tell you what's the problem. In the Genesis setup, it displays the 76 different ionization levels, the volume, the dozens of ORP levels, and so much more!

The EOS Electrolysis Chamber:

The Genesis Platinum 9 has 9 patented slotted plates inside a huge electrolysis chamber, designed for power, precision and performance. EOS is the only water ionizer manufacturer with an exclusive relationship with the Hee Sung Metal Company, the top rated metal company in Japan. That's why we offer a LIFETIME WARRANTY on the EOS electrolysis chamber!

The EOS Patented Slotted Plate:

Solid, flat plates, like those used in the Enagic Kangen SD501 Water Ionizer, have a major problem in that the electrical current flows around the edges of the plate, leaving the center of the plate mostly unused. Most water ionizer manufacturers have addressed this problem by putting mesh over their plates, so the whole plate is utilized during ionization. But mesh has a major problem in that it puts ridges on the plates that capture minerals, and as the minerals build up, ionization gets weaker, forcing customers to clean their plates often. Only EOS has solved this problem by offering patented slotted plates that utilize the entire plate without having to use mesh!

The EOS Dual Filtration System:

The EOS dual filtration system offers 16 stages of filtration, including an ion resin exchange level for help in the removal of fluoride. They use pure coral calcium from Australia to put just the right amount of minerals into your water to enhance ionization. They also use ceramic balls, activated carbon, antibacterial felt, and sediment filters to thoroughly clean and revitalize your water before it is even ionized. EOS filters are sulphite free and medical grade.

All of this for only \$2,095!
